Unfavorable Reports Regarding Copper and Steel Helped to Retard Prices.

NEW YORK, April 9 .- Bewilderment problem, was amply explained by the disclosures overnight of the extent to which the principals in the working out of the problem has been confused.

That the Erie was saved from a receivership and that the advance of relier funds expressed confidence not only in the property, but in the financial prospect in general, were the results summed up to be accepted from the episode as a whole. The effect in the stock market of the day, however, was of slow growth, and was not uninterrupted.

Depressing influences were another decline in the London copper market, and reiterated assertions that a cut in prices of steel products was in contemplation. problem, was amply explained by the

templation.
United States Steel was affected by
these reports and did not share-largely
in the recovery in prices.
Foreign exchange advanced sharply,
partly influenced by remittances in redemption of the matured Erie note

Sterling exchange at Paris declined and gold continued to go out to Paris from London, increasing the likelihood of shipments from New York to Paris on the triangular operations.

Bonds were firm. Total sales of bonds, par value, \$4,55,000. United States bonds were unchanged on call. Total sales of stocks to-day, 562,409 shares.

NEW ORLEANS, LA., April 9.—COTTON

—Spots were easy, 15., down on all grades;
middling, 1016c; sales were 1,600 bales on
the spot and 700 to arrive. Futures opened
dull, 136 points below the close yesterday,
early cables being very disappointing. The
weakness abroad was attributed to Egyptian
and Continental selling and rumors of the
embarrassment of a London establishment.
Large receipts in the absence of a heavy
spot demand also had a depressing effect on
the market. There was some improvement
when a buillish factor was presented in the
weather forecast, but at the close, which
was steady, the active months were 247
points below the close yesterday. Closing
bids: April 9,73; May, 9,8; June, 9,85;
July, 9,63; August, 9,50; October, 9,33; Decenber, 9,33.

IN BONSACK CASE

END OF ARGUMENT

[Special to The Times-Dispatch.]

RALEIGH, N. C., April 9.—The concluding argument in the case of the United Cligarette Machine Company vs. R. H. Wright, of Durham and New York, was heard to-day before Standing Master Montgomery and Senator: Daniel, of Virginia, who has been here as counsel for the plaintiff for the past week, left to-night for Lynchburg to spend a few days before returning to Washington. There are a number of counts and many complicated legal phases in the case. There are minor contentions setting up claims of several thousand dollars each for differences in accounts and errors alleged to have been made while Mr. Wright was foreign agent for the Bonsack cigarette machines in Japan. China and other foreign countries. However, the principal feature of the case is a claim by the plaintiffs that they are entitled to recover \$150,000, for the reason that under the contract the company had with Mr. Wright as foreign agent, he was under obligations to sign any contract made by the company for any of his territorial rights for stated periods, and that a contract was presented to him for his signature selling the cigarette machine right in Japan for five years to the American Tobacco Company, and he refused to sign it, thereby preventing the plaintiffs from realizing the \$150,000 involved.

Those for North Carolina Troops Being Sent Out. Towns Want Companies. Special to The Times-Dispatch.]
RALEIGH, N. C., April 9.—Colonel Alfred Williams, of the North Carolina National Guard, began to-day the work of shipping out to the various companies constituting the guard supplies of new Springfield rifles, which have just been received from the United States War Department. Every company in the guard is to have a full quota of the new guns, such as are now used in the regular army.

Adjutant-General T. R. Robertson, of the North Carolina National Guard, says there was never a time in the history of the guard when there were so many towns, now without military companies, asking for admission. In fact, there are at least as many now out of the guard asking admission as there are in the guard. Only the occurrance of vacancles can make room for any of those on the waiting list under the present regulations.

It is now declared that at a meeting to be called the Council will pass resolutions, to be transmitted to Judge Hanckel, of the Corporation Court, containing the provisions of the vetoed crdinances, and asking that they be enforced by the court in the granting of licenses for the next fiscal year. There are those who believe Judge Hanckel will grant the majority request of the two byanches of Council.
